

# **CODE DEBUGGING**

## **Rules and Regulations**

- The session will last for one hour.
- Participants cannot use external resources or consult with others during the debugging process.
- Participants can use any debugging tools available within the IDE or provided separately.
- Each participant is expected to debug as many issues as possible within the given time frame.
- The participants must document the bugs they find and provide explanations for their fixes.
- Participants earn points for each bug they successfully identify and fix.
- Bonus points can be awarded for creativity in problem-solving or for finding particularly elusive bugs.
- There will be 5-10 questions for the test.
